20<sup>th</sup> December 2012

To Whom It May Concern,

**RE: TESTIMONIAL for NANOYO TREATMENT**

Appleland Playhouse has acquired the NanoYo treatment in year 2010.

The centre has not had any reported cases of Hand, Foot and Mouth Disease (HFMD) for the past 2 years and is confident of the effectiveness of its product and services. During the 2 years treatment, there are also no children reported to have any allergy reaction to the product.

Thank you.

With Regards,

Kelly Chua

Supervisor
